*(Golden Acres vehicle and per-person fees are not included.)*

**Sign-up cutoff date is Friday September 27<sup>th</sup>.**

Divers' busy carving pumpkin

The water temperatures should be in the 60 degree range, with the best water visibility of the season! The pumpkins will spilled their guts out on shore prior to the dive, and then add some Scout-rendered under water "vegetable surgery". Last year it took a mere 32 minutes of underwater precision carving to turn ordinary garden gourds in to underwater masterpieces!

**This event holds all the elements of a perennial Scout fall classic;  
adventure, convenience, timeliness, creative expression, and ----FUN!**
